## Cingol 3.0 Smart Operation System

- Self-diagram detection system.
- Shock-resistant function maximizes the comfort.
- Clean up chair position, one key to turn off the light, the chair will rise up to the highest position and the spittoon flushes itself automatically, avoiding blocked pipes and odors, improve work efficiency.
- Safety emergency stop, First-aid chair position.
- Chair interlock system: when the handpiece or scaler is working, the chair movement will lock itself.

Touch sense control panel

Ti-Alloy handpiece tubing connector

Imported 3-way syringe

## Ergonomics Upholstery

- The specific shape of the ultra-thin backrest design makes more room for the doctor and convenient to operate.
- The flat backrest leaves enough space for doctors & assistance. Legs can freely stretch under the backrest to avoid the soreness caused by V-shaped position during surgery.
- Wear-resistant seamless PU as standard configuration, which is also soft and breathable. High elastic sponge ensures the comfort of patients.
- The blockage protection system will stop automatically and rise slightly when the seat encounters resistance during the descent to avoid accidents.
- The sidebox is connected in the middle of the frame, making the whole device more stable.

**Skidproof handrest**

**Metal backrest**  
Detachable backrest for easy replacement of cushion.

**3-joint-axes**  
Can be positioned for adults and children or disabled alike.
