CHOOSE THE RIGHT SOLUTION

i-liner is an innovative aligners system without compromise, for a full aesthetic treatment.

Uniquely clear, excellent fit, and an easy-to-use web-based workflow, to simplify your daily routine.

benefits

- + Absolute precise fit for predictable treatment.
- + Individually hand-made for a more accurate fit.
- + Mechanical finishing process to get a smoother surface for outstanding comfort.
- + Flexy is our outstanding material, perfectly clear that doesn't stain during the treatment.
- + Enhance the patients' confidence in their smile.
- + Available for adults and teens in need of tooth movement.

workflow and packages

Our goal is to make your life easy, hence we have developed an hassle-free workflow.

1

Start.

Go to www.i-liner.it, login to your account and upload the clinical case.

2

Evaluate.

Download our 3D viewer and analyze our set-up proposal. You can accept or ask for changes.

3

Receive.

+ A ready-to-go Smile Box with patient's information, IFU, aligner case, sanitizer cleaning solution;
+ Toolbox with models, aligners, technical documentation.

Simple packages structure.

Get exactly what you need without overpaying.

Entry Level Package		Up to 15 Aligners (both arches) Up to 12 Aligners (single arch)

About Flexy

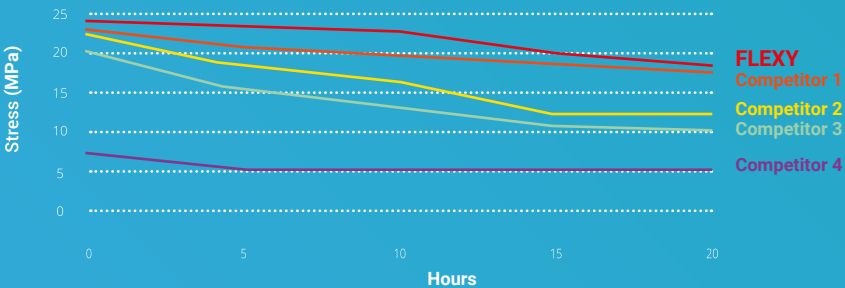

Strength

Flexibility

Stress relaxation over time

All clear aligners lose strength over the time that they are worn in the mouth. **FLEXY** applies a more continuous, effective force over time, helping you achieve more predictable tooth movement.

TECHNICAL DATA	FLEXY
Light Transmission*	92%
IZOD Impact Strength	1.86
Tensile Strength (psi)	6,180
Flexural Modulus (psi)	200k
Rockwell Hardness	112R (72D)
Water Absorption (24h)	0.14%

(*) Above 80% is great; Above 90% is exceptional.

ALIGNERS PLIERS: ABC LINE

Round hole forming plier

Tear Drop hole forming plier

Bite plane plier

Rectangular pin forming plier

Cylindric pin forming plier
